**WRS EXPANDS OPERATIONS INTO THE
UPSTATE, NY / SYRACUSE REGIONAL MARKETPLACE**

WRS Environmental Services, Inc. (WRS), headquartered in Yaphank, NY has expanded its operational footprint to include the Upstate, NY / Syracuse marketplace. WRS has expanded into a service center capable of housing equipment, and offices, located at 111 Lumber Street, Canastota, NY.

“This location is centrally located within the marketplace, allowing WRS to respond quickly and efficiently to our client’s needs. We are looking forward to the opportunity to provide our clients with state-of-the-art equipment, and service unmatched in the industry.”, commented, Patrick McLoughlin, Director of NY Operations.

The company will continue to expand its client base in the region by offering services including Emergency Spill Response, Transportation & Disposal of both Hazardous and Non-Hazardous Waste, Industrial Cleaning, Utility Pole Hole Installation, Utility Location Vacuum Excavation Services and Environmental Remediation.

“WRS has invested in the addition of specialized Industrial Hydro Excavation Vacuum Trucks, this equipment is uniquely suited to effectively work through the extreme weather conditions often associated with the region. These particular trucks require minimal set up time and allow us the ability to reach 26’ away from the truck and dig to a depth of 20’, before adding any additional extensions which allows for maximum productivity.” mentioned, Ty Rose, Vice President of NJ Operations & Fleet Management.

ABOUT WRS

WRS Environmental Services, for more than 25 years, has been an outstanding provider of environmental, utility and industrial services, with a strong emphasis on developing a highly trained and experienced workforce. Utilizing state-of-the-art equipment and advanced technologies, WRS has built a reputation for providing customers with quality workmanship and innovative, customized, turn-key solutions.
